PROJECT PROFILE ON PORTABLE JIB CRANE - DCMSME

The scope and limitations of this project work is to design and fabricate a portable work platform elevated by two

hydraulic cylinders. The design of a hydraulic lift (Elevated work platform) is known as its architecture and the space it is meant to operate is called its working envelope.

A project proposal is a key document that enables a project suitor to obtain funds

and supports to sustain the project plan. It is often the one that gives the verdict of the sponsorship and not the project itself. Consequently, there are already several excellent project ideas that went to trash because of poor project proposals.
